United States Agents Com-
ing Right to Field to
Make Purchases

LONDON, Ont., Aug. 12.—A boom in the beef cattle business is reported by freight agents here. Within the past few weeks there has been a heavy movement of feeder cattle from western Canada into western Ontario and another heavy movement of finished cattle to Buffalo and Detroit.

United States buyers are coming right out to the field to buy the cattle on the hoof and carrying for the shipping charges themselves.

One driver is reported to have shipped cattle to Buffalo from some distant point last week and at another point 10 carloads of western feeder cattle were disposed of in one day. The dealer stated that he could have sold another 10 carloads.

Farmers Will Get \$180,000,000 For Goods Is Estimated

Astonishing Improvement Made in Crop Conditions Following Heavy Rains Over Most Sections of Province

Constituting a new high record for value of Alberta's farm products since 1929, it is estimated that farmers of this province this year will receive between \$170,000,000 and \$180,000,000 for their wheat, live-stock and other products.

Crop conditions made an astonishing improvement when heavy rains fell over every part of Alberta except the extreme south-east corner, bringing new prospects here from failure through drought almost insurmountable.

Joe In The Sky

BEFORE the season's first race, the fans of the Edmonton fall race meet were looking for a horse to back. The season's first race was a horse race, and the fans were looking for a horse to back. The season's first race was a horse race, and the fans were looking for a horse to back.

There can be no mistake about what these figures mean. The fans have not only spoken—they have shouted. They like racing, but they want it cleaned up. Many of the underhand tricks that have been perpetrated in the past. With such a desire for approval from the fans, winter racing officials should immediately continue their campaign against track abuses until they have eliminated every single condition that might possibly give rise to rumors and suspicion.

Thousands of fans are in the box, and many are in the stands. The fans are looking for a horse to back. The season's first race was a horse race, and the fans were looking for a horse to back. The season's first race was a horse race, and the fans were looking for a horse to back.

The secret of it is its high speed. Even when it is thundering up to the wire at top speed, this camera takes 16 pictures during the time it takes the animal to raise a hoof and put it back on the track again.

Takes Fort Saskatchewan Purse Leading Lomar—Bodiou Up on Three Winners—Big Prices in First Race

Close and unexpected was put a lot of paprika in the opening day's card of the Edmonton fall race meet yesterday—and some healthy payoffs into the pockets of those who were lucky enough to pick such horses as Penny, the place and show in the first race, or Miller J. on the nose in the second.

While several surprises were added to the afternoon the hopes were to be disappointed from in practice every event. The long shot, Penny, placed in the second race, and was given about 100 to 1 odds to win. The odds were 100 to 1 when the race was run, and the odds were 100 to 1 when the race was run.

ATTRACTION PRICES
Miller J. owned by W. C. John, and Penny, owned by J. H. Val, made the highest first place of the season in the second race. The odds were 100 to 1 when the race was run, and the odds were 100 to 1 when the race was run.

The daily double, Juhl in the first to be wire in the third paid first holders \$27.50. The grand total returned \$334.00 to those who picked Penny, Miller J. and Penny Child in the seventh race. Penny Child was the favorite in the seventh race.

A crowd of nearly 10,000 was in the stands for the opening day's card. The race was a success, and the fans were looking for a horse to back. The season's first race was a horse race, and the fans were looking for a horse to back.
